PRIYA SHARMA

Data Analyst | AI Engineer | Python Developer
Email: priya.sharma@email.com | Phone: (555) 123-4567 | LinkedIn: linkedin.com/in/priyasharma
Location: Seattle, WA

SUMMARY

Data-driven AI engineer with 3+ years of experience in Python, SQL, data analysis, and machine learning. Skilled in building predictive models, automating data pipelines, and creating dashboard insights using pandas, Power BI, Excel, and scikit-learn. Strong background in NLP, model deployment, and cloud-based workflows.

SKILLS

Python, SQL, MySQL, Pandas, NumPy, Scikit-Learn, Machine Learning, NLP, Power BI, Excel, GitHub, Docker,

EXPERIENCE

AI Engineer
Northwind Labs | 2022 - Present

- Built and deployed machine learning and NLP models using Python, scikit-learn, pandas, and Docker.
- Developed data pipelines and dashboards to analyze customer churn, retention, and engagement trends.
- Worked with SQL databases, Excel data cleaning, and Power BI visualizations to support business decisior
- Improved model accuracy by 18% through feature engineering and hyperparameter tuning.

Data Analyst
BrightMetrics | 2020 - 2022

- Analyzed product and customer data using SQL, Excel, and Python to uncover growth opportunities.
- Built automated reports and dashboards in Power BI for executive stakeholders.
- Cleaned and transformed datasets for forecasting and operational performance tracking.

EDUCATION

B.S. in Computer Science
University of Washington | 2016 - 2020

CERTIFICATIONS

AWS Certified Cloud Practitioner | Google Data Analytics Certificate
